ICOM INCORPORATED AND SUBSIDIARIES

Notes to Consolidated Financial Statements

March 31, 2007

1. Basis of Preparation

The accompanying consolidated financial statements of ICOM INCORPORATED (the "Company") and subsidiaries are prepared on the basis of accounting principles generally accepted in Japan, which are different in certain respects as to the application and disclosure requirements of International Financial Reporting Standards, and have been compiled from the consolidated financial statements prepared by the Company as required by the Securities and Exchange Law of Japan.

In preparing the accompanying consolidated financial statements, certain reclassifications and rearrangements have been made to the consolidated financial statements issued domestically in order to present them in a format which is more familiar to readers outside Japan.

In addition, the notes to the consolidated financial statements include information which is not required under accounting principles generally accepted in Japan but is presented herein as additional information.

Effective the year ended March 31, 2007, the Company has adopted a new accounting standard for the presentation of net assets in the balance sheet and the related implementation guidance. In addition, effective the year ended March 31, 2007, the Company is required to prepare consolidated statements of changes in net assets instead of consolidated statements of shareholders' equity. In this connection, the previously reported consolidated balance sheet as of March 31, 2006 and consolidated statement of shareholders' equity for the year then ended have been restated to conform to the presentation and disclosure of the consolidated financial statements for the year ended March 31, 2007.

The translation of yen amounts into U.S. dollar amounts is included solely for the convenience of readers outside Japan, as a matter of arithmetic computation only, and has been made at ¥118.04 = U.S.\$1.00, the approximate rate of exchange in effect on March 31, 2007. This translation should not be construed as a representation that yen have been, could have been, or could in the future be, converted into U.S. dollars at the above or any other rate.

2. Summary of Significant Accounting Policies

(a) Principles of consolidation

The accompanying consolidated financial statements include the accounts of the Company and the companies which it controls directly or indirectly. Companies over which the Company exercises significant influence in terms of their operating and financial policies have been included in the consolidated financial statements on an equity basis.

All significant intercompany balances and transactions have been eliminated in consolidation. All material unrealized intercompany gains and losses among the Company and the subsidiaries have been entirely eliminated.

(b) Cash and cash equivalents

For purposes of the consolidated statements of cash flows, cash and cash equivalents consist of cash on hand, deposits with banks withdrawable on demand, and short-term investments which are readily convertible to cash subject to an insignificant risk of any changes in their value and which were purchased with an original maturity of three months or less.

(c) Foreign currency translation

The balance sheet accounts of the overseas subsidiaries are translated into yen at the rates of exchange in effect at the balance sheet date except that the components of net assets are translated at their historical exchange rates. Adjustments resulting from translating accounts denominated in foreign currencies are not included in the determination of net income in the accompanying consolidated financial statements, but are reported as "Translation adjustments", a component of net assets.

Revenue and expense accounts are translated at the average rates of exchange in effect during the year.

All monetary assets and liabilities denominated in foreign currencies are translated into yen at the rates of exchange in effect at the balance sheet date, except that receivables and payables hedged by qualified forward foreign exchange contracts are translated at the corresponding contract rates. Gain or loss on each translation is credited or charged to income.

(d) Marketable securities and investments in securities

In general, securities are classified into three categories: trading securities, held-to-maturity debt securities or other securities. Trading securities, consisting of debt and marketable equity securities, are stated at fair value. Gain and loss, both realized and unrealized, are charged to income. Held-to-maturity debt securities are stated at their amortized cost. Marketable securities classified as other securities are carried at fair value with any changes in unrealized holding gain or loss, net of the applicable income taxes, reported as a separate component of net assets. Non-marketable securities classified as other securities are carried at cost determined by the moving average method.

Securities held by the Company and its subsidiaries including equity investments in associates are all classified as "other securities" and have been accounted for as outlined above.

ICOM INCORPORATED AND SUBSIDIARIES

Notes to Consolidated Financial Statements

(e) Inventories

Inventories are classified into four categories and are valued as follows:

Finished goods	principally at cost determined by the moving average method, except for goods held by certain overseas subsidiaries which are valued at the lower of cost or market, cost being determined by the moving average method
Work in process	at cost determined by the moving average method
Raw materials and supplies for repairs and R&D activities	at the lower of cost or market, cost being determined by the moving average method
Merchandise and supplies other than those for repairs and R&D activities	principally at the most recent purchase price, except for items held by certain overseas subsidiaries which are valued at the lower of cost or market, cost being determined by the moving average method

(f) Property, plant and equipment

Property, plant and equipment are stated at cost. Depreciation of property, plant and equipment is computed by the declining-balance method over the estimated useful lives of the respective assets as prescribed in the Corporation Tax Law, except that the straight-line method is applied to buildings (other than structures attached to the buildings) acquired on April 1, 1998 and there after. Small assets owned by the Company and its domestic subsidiaries, which are valued at ¥100 thousand or more and less than ¥200 thousand, are depreciated by the straight-line method over a three-year period. Depreciation at the Company's overseas subsidiaries is calculated at rates based on the estimated useful lives of the respective assets by either the accelerated method or the straight-line method.

(g) Software development costs

Expenditures relating to the development of computer software intended for internal use are charged to income when incurred, except if it is anticipated that this software will contribute to the generation of income or to future cost savings. Such expenditures are capitalized as assets and amortized by the straight-line method over an estimated useful life of 3 years or 5 years.

(h) Allowance for doubtful accounts

The allowance for doubtful accounts is computed based on the historical ratio of bad debts and an estimate of certain uncollectible amounts determined after an analysis of specific individual receivables.

(i) Warranty reserves

Warranty reserves for certain overseas subsidiaries are calculated based on the historical ratio of the cost of repairs of the products against the net sales.

(j) Accrued retirement benefits

Accrued retirement benefits for employees are provided mainly at an amount calculated based on the retirement benefit obligation and the fair value of the pension plan assets as adjusted for unrecognized actuarial gain or loss and unrecognized prior service cost. The retirement benefit obligation is attributed to each period by the straight-line method over the estimated remaining years of service of the eligible employees.

Actuarial gain or loss and prior service cost are amortized over a period of ten years commencing the year following the year in which the gain or loss is recognized by the straight-line method. The amortization period is shorter than the average estimated remaining years of service of the eligible employees.

The net retirement benefit obligation at transition of ¥592 million is being amortized principally over a period of fifteen years.

The Company and certain subsidiaries have unfunded retirement benefit plans for directors and corporate auditors. The amounts required under the plans have been fully accrued in accordance with their internal regulations.

ICOM INCORPORATED AND SUBSIDIARIES

Notes to Consolidated Financial Statements

(k) Leases

The Company and its subsidiaries lease certain assets under noncancelable lease agreements referred to as finance leases. At the Company and its domestic subsidiaries, certain overseas subsidiaries, finance leases, which are defined as leases which do not transfer the ownership of the leased property to the lessee, are principally accounted for as operating leases.

(l) Hedge accounting

Under the accounting standard for financial instruments, gain or loss on derivatives designated as hedging instruments is deferred until the loss or gain on the underlying hedged items is recognized. Derivatives such as forward foreign exchange contracts are utilized to manage foreign currency risk. Forward foreign exchange contracts which meet certain conditions are accounted for by a method under which foreign currency receivables or payables are translated at their corresponding forward foreign exchange contract rates.

(m) Appropriation of retained earnings

Under the Commercial Code of Japan, the appropriation of retained earnings with respect to a given financial period is made by resolution of the shareholders at a general meeting held subsequent to the close of the financial period and the accounts for the period, therefore, do not reflect such appropriations.

Effective May 1, 2006, the Corporation Law of Japan (the "Law") went into effect. The Law provides that bonuses to directors and corporate auditors are to be made by resolution of the Board of Directors and the reserve for bonuses to directors and corporate auditors is to be set aside in the financial period. The Law further provides that cash dividends are to be made by resolution of the shareholders at a general meeting held subsequent to the close of the financial period and the accounts for the period, therefore, do not reflect such appropriations. (See Note 16.)

3. Change in Method of Accounting for Bonuses to Directors and Corporate Auditors

Effective the year ended March 31, 2007, the Company and its domestic consolidated subsidiaries have adopted "Accounting Standard for Directors' Bonuses" (Accounting Standards Board of Japan (ASBJ) Statement No. 4 issued on November 29, 2005) and have charged bonuses to directors and corporate auditors to income as incurred. Up to the year ended March 31, 2006, such bonuses were accounted for as decreases in unappropriated retained earnings through the appropriation of retained earnings with respect to a given financial period made by resolution of the shareholders.

As a result of the adoption of this accounting standard, the Company and its domestic consolidated subsidiaries recorded an allowance for bonuses to directors and corporate auditors of ¥35 million (\$297 thousand) at March 31, 2007 which is included in accrued expenses, and operating income and income before income taxes decreased by the same amount for the year then ended from the amount which would have been recorded under the method applied in the previous year.

4. Cash and Cash Equivalents

7. Accrued Retirement Benefits for Employees

The Company and its domestic subsidiaries have employees' defined benefit plans, i.e., corporate pension plans, tax-qualified pension plans and lump-sum payment plans.

The Company and its domestic subsidiaries pay additional retirement benefits to employees under certain circumstances.

The funded and accrued status of the employees' defined benefit plans of the Company and its domestic subsidiaries and the amounts recognized in the consolidated balance sheets at March 31, 2007 and 2006 are summarized as follows:

	Millions of yen		Thousands of U.S. dollars
	2007	2006	2007
Retirement benefit obligation at end of year	¥ (3,194)	¥ (2,134)	\$ (27,058)
Plan assets at fair value at end of year	2,441	2,259	20,679
(Unfunded retirement benefit obligation) plan assets exceeding retirement benefit obligation	(753)	125	(6,379)
Unrecognized net retirement benefit obligation at transition	163	184	1,381

Prepaid pension cost	(500)	(581)	(4,236)
Accrued retirement benefits for employees	¥ (24)	¥ (13)	\$ (203)

Certain domestic subsidiaries have adopted simplified methods for calculating their retirement benefit obligation, which are permitted under the accounting standard for employees' retirement benefits.

The components of retirement benefit expenses for the years ended March 31, 2007 and 2006 are outlined as follows:

	Millions of yen		Thousands of U.S. dollars
	2007	2006	2007
Service cost	¥ 135	¥ 117	\$ 1,144
Interest cost	40	37	339

9. Shareholders' Equity

The new Corporation Law of Japan (the "Law"), which superseded most of the provisions of the Commercial Code of Japan (the "Code"), went into effect on May 1, 2006. The Law provides that an amount equal to 10% of the amount to be disbursed as distributions of capital surplus (other than the capital reserve) and retained earnings (other than the legal reserve) be transferred to the capital reserve and the legal reserve, respectively, until the sum of the capital reserve and the legal reserve equals 25% of the capital stock account. Such distributions can be made at any time by resolution of the shareholders, or by the Board of Directors if certain conditions are met.

The Company's legal reserve included in retained earnings at March 31, 2007 and 2006 amounted to ¥293 million (\$2,482 thousand).

Under the Law, upon the issuance and sale of new shares of capital stock, the entire amount of the proceeds is required to be accounted for as capital stock, although a company may, by resolution of the Board of Directors, account for an amount not exceeding one-half of the proceeds of the sale of new shares as additional paid-in capital included in capital surplus.

Movements in treasury stock for the year ended March 31, 2007 are summarized as follows:

	Number of shares			March 31, 2007
	2007			
	March 31, 2006	Increase	Decrease	
Treasury stock	102,681	300	17,200	85,781

10. Stock Option Plans

The Company has stock option plans for the Company's and the domestic subsidiaries' directors and certain employees in accordance with the provisions of the Articles 280-20 and 280-21 of the Code.

Effective May 1, 2006, the Company has adopted Articles 236 and 238 of the Corporation Law of Japan.

The particulars of the stock option plans are outlined as follows:

(a) Plan approved at a meeting of the shareholders of the Company held on June 27, 2001:

Recipients.....	The Company's 7 directors and 113 employees
Type of shares	Common stock
Number of shares	Up to 186,000 shares (the balance at March 31, 2007 was nil)
Exercise value	¥1,199 (Note (1))
Exercisable period	From July 1, 2003 to June 30, 2006
Conditions for exercise of options.....	Note (2)

Note (1): If the Company implements a split of its shares of common stock or issues new shares of common stock at a value lower than the prevailing market price, the exercise value will be adjusted according to the following formula and any fractional amount of less than one yen resulting from the adjustment will be rounded up to the full yen amount:

$$\text{Exercise value after adjustment} = \text{Exercise value before adjustment} \times \frac{\text{Number of shares already in issue} + \frac{\text{Number of new shares issued}}{\text{Market price before stock split or new share issuance}}}{\text{Number of shares already in issue} + \text{Number of shares arising from the stock split and new shares issued}}$$

Note (2): (1) Recipients to whom stock acquisition rights have been granted may not continue to be eligible to exercise these rights if they lose or relinquish their positions as directors of the Company.

(2) In the event of the death of a stock option holder, his/her heirs have the right to exercise the deceased's stock acquisition rights.

ICOM INCORPORATED AND SUBSIDIARIES

Notes to Consolidated Financial Statements

(b) Plan approved at a meeting of the shareholders of the Company held on June 26, 2003:

Number of stock acquisition rights.....	3,950 (Note (1))
Recipients.....	9 directors, 1 corporate auditor and 259 employees of the Company and 1 director and 40 employees of the domestic subsidiaries
Type of shares.....	Common stock
Number of shares.....	Up to 395,000 shares (the balance at March 31, 2007 was 151,800 shares)
Exercise value	¥2,050 (Note (2))
Exercisable period	From July 1, 2005 to June 30, 2008
Conditions for exercise of options.....	Note (3)

Note (1): The Company will issue 100 shares upon the exercise of each stock acquisition right.

Note (2): If the Company implements a split or a reverse split of its shares of common stock, the exercise value will be adjusted according to the following formula, and any fractional amount of less than one yen resulting from this adjustment will be rounded up to the full yen amount:

$$\text{Exercise value after adjustment} = \text{Exercise value before adjustment} \times \frac{1}{\text{Ratio of split or reverse split}}$$

Note (3): (1) Recipients to whom stock acquisition rights have been granted may not continue to be eligible to exercise these rights if they lose or relinquish their positions as officers or employees of the Company and/or the domestic subsidiaries. Therefore, they are required to remain as the Company's directors, corporate auditors or employees or the directors or employees of the Company's domestic subsidiaries at the time of their exercise of their stock acquisition rights.

(2) In the event of the death of a stock option holder, his/her heirs do not have the right to exercise the deceased's stock acquisition rights.

(3) Other conditions will apply as prescribed in the agreement entered into between the Company and the recipients.

(4) A transfer of stock acquisition rights is permissible but is subject to a resolution approved at a meeting of the Company's Board of Directors.

11. Derivatives and Hedging Activities

Derivative financial instruments are utilized by the Company principally in order to manage certain risk arising from adverse fluctuation in foreign currency exchange rates. The Company has established a control environment which includes policies and procedures for risk assessment, and under these rules, the Company enters into foreign forward exchange contracts which fall within the Company's foreign currency holding limits. Periodical evaluation of the effectiveness of the hedging activities is thus waived, taking into account that complete offsetting of any fluctuation in exchange rates or cash flows is made possible by these contracts. In addition, the Accounting Department of the Company is responsible for the execution and management of all derivatives positions. The executive director approves, in advance, all transactions within the limits reported at meetings of the Board of Directors, and the results of the executed transactions are reported at the monthly meetings of the Board of Directors. The Company does not hold or issue derivative financial instruments for speculative trading purposes.

The Company is exposed to certain market risk arising from its forward foreign exchange contracts. It is also exposed to the risk of credit loss in the event of non-performance by the counterparties to the contracts; however, the Company does not anticipate non-performance by any of these counterparties all of whom are domestic financial institutions with high credit ratings.

The Company's subsidiaries do not utilize any derivative financial instruments.

Disclosure of fair value information on derivatives at March 31, 2007 and 2006 has been omitted because all open derivatives positions qualified for deferral hedge accounting.

12. Research and Development Costs

Research and development costs included in selling, general and administrative expenses totaled ¥2,579 million (\$21,849 thousand) and ¥2,365 million for the years ended March 31, 2007 and 2006, respectively.

13. Amounts Per Share

Amounts per share at March 31, 2007 and 2006 and for the years then ended were as follows:

	Yen		U.S. dollars
	2007	2006	2007
Net assets	¥ 2,999.27	¥ 2,834.22	\$ 25.41
Net income:

Diluted	216.29	249.14	1.83
Cash dividends	40.00	40.00	0.34

Net assets per share are computed based on the net assets available for distribution to the shareholders and the number of shares of common stock outstanding at the year end.

Basic net income per share is based on the weighted-average number of shares of common stock outstanding during each year. Diluted net income per share is computed based on the weighted-average number of shares of common stock outstanding during each year after giving effect to the dilutive potential of the shares of common stock to be issued upon the exercise of stock acquisition rights.

Cash dividends per share represent the cash dividends declared as applicable to the respective years.

14. Segment Information

The Company and its subsidiaries are primarily engaged in the manufacture and sales of products in Japan and overseas in two major segments: radio and computer. The radio products are manufactured by the Company and Wakayama Icom Inc. and are sold in Japan and overseas through the Company and its subsidiaries. The manufacturing in the computer segment is handled by the Company and Wakayama Icom Inc. and certain components and commercial products are supplied by Asia Icom Inc. The market for products in the computer segment is mainly Japan and these products are sold by the Company and its domestic subsidiaries.

Report of Independent Auditors

The Board of Directors
ICOM INCORPORATED

We have audited the accompanying consolidated balance sheets of ICOM INCORPORATED and subsidiaries as of March 31, 2007 and 2006, and the related consolidated statements of income, changes in net assets, and cash flows for the years then ended, all expressed in yen. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in Japan. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of ICOM INCORPORATED and subsidiaries at March 31, 2007 and 2006, and the consolidated results of their operations and their cash flows for the years then ended in conformity with accounting principles generally accepted in Japan.

The U.S. dollar amounts in the accompanying consolidated financial statements with respect to the year ended March 31, 2007 are presented solely for convenience. Our audit also included the translation of yen amounts into U.S. dollar amounts and, in our opinion, such translation has been made on the basis described in Note 1.
